Exclusionary coverage

It provides repair or replacement of all factory installed original mechanical equipment on your RV, except for regularly scheduled maintenance, interior and exterior appearance concerns, and what is listed under the "What is not covered" section of your service contract.

Today's RVs are more technologically advanced — causing the cost of repairs to continually increase. You can protect yourself from raising costs of repairs with a Portfolio One RV service contract and ride in comfort of knowing your RV is covered for years to come.
